DESIGN SERIES™

NEW

# DESIGN SERIES™

Welcome to our new range. We've called it DESIGN SERIES™ because it blends the technical, the practical and the aesthetic.

The products represent the first time in our long history that we've created a toaster and a kettle in tandem. We think they will fit with the flow of your home and your desire to make it work as a homogenous whole. These are clean lines to live with.

“ Drawing on over 70 years of expertise, we have once again combined innovation and design with the launch of the adaptable Dualit DESIGN SERIES™ ”

*Alex Gort-Barten*

# DESIGN SERIES™ TOASTER

Dualit's DESIGN SERIES™ toasters combine ergonomics and aesthetics in a brand new way. With our trademark longevity and functionality, you'll be toasting what you like, how you like it.

## Patented Perfect Toast Technology:

Calculates the temperature of your toaster and surroundings to derive the precise toasting time for your next slice of toast

## Pure Geometric Lines:

This toaster's form is mathematically harmonious - it echoes the fact that geometry is vital to design and build

## Peek & Pop® Function:

Unique to Dualit, this feature allows you to check on your bread without stopping it toasting

## Interchangeable Colour Panels:

With innovative interchangeable panels, you can select and swap shades for your toaster according to your mood

### Extra wide slots:

For chunky bread and more – combine with our sandwich cage accessory and no job is too tough

### Bagel and bun warming facility:

Allows you to crisp just the insides of your bagel or bun

### Defrost function:

Defrost frozen bread before toasting to keep it crunchy

### 2 slices or four:

Available in 2-slot and 4-slot models, both with the same sleek styling and features

Optional sandwich cage

A versatile sandwich cage and recipe book

## 💡 PATENTED PERFECT TOAST TECHNOLOGY

At the start of each toasting cycle, a thermal probe measures the temperature inside the toaster and our patented algorithm adjusts the toasting time accordingly; adding time if you're in a cold room toasting your first slice of bread, or reducing time if you're in a hot room toasting your fifth round of bread. For every fraction of a degree the temperature changes, the toast time is adjusted respectively, ensuring perfectly consistent browning on every cycle.

“ Perfect Toast Technology is the MOST important innovation in toasting since the Proheat® element. ”

*Leslie Gort-Barten  
Managing Director*

# WHAT'S YOUR COLOUR

The Architect range offers no-compromise quality, flexibility and style. With innovative interchangeable panels, you can select and swap shades for your toaster and kettle according to your mood. For house moves, renovations, or even just your latest colour craving.

## CHOOSE YOUR PANEL PACK

# DESIGN SERIES™ KETTLE

Everything about Dualit's DESIGN SERIES™ kettle is cool and collected. It's quiet, it's quick and it's got a whole new look. Resilient and stylish, our DESIGN SERIES™ kettle makes boiling water an art form.

## Patented Pure Pour:

Unique and smooth pouring action with anti drip spout

## Rapid Boil:

Our powerful 1.5kW element brings water to boiling point super fast

## Illuminated Window:

Our water-level indicator window lights up a deliciously cool blue whilst boiling

## Push Button Lid:

Keep your hands safe from steam with our simple push button lid – you don't need to touch the lid to open it.

## Interchangeable Colour Panels:

With innovative interchangeable panels, you can select and swap shades for your kettle according to your mood

### 1.5L capacity:

A versatile mid size between catering for families and still being handy for a quick cup

### Cup level indicators:

The cup levels marked on our indicator window means there's never any need to over boil
